About Trumark

Australian owned and with over 70 years serving customers, Trumark are specialist suppliers of facade, fit out and fixing systems.

With an extensive range and excellent stock holdings, we also supply the required tools and accessories to get the job done, so you can complete your project faster and easier.

With Trumark, it's your build, made easy.

Facade

With an extensive range of fire compliant Facade products to suit most build requirements, Trumark also supply all the system accessories from top hats to vapour wraps, all matched with excellent technical support.

Fit Out

From drywall systems to plasterboard and architectural finishings, Trumark can supply all the components required for your build fit out. Our team can also offer specialised engineering support as required.

Fixings

High quality fixings are a critical part of your build, which is why Trumark offer an extensive range of screws and rivets for various applications, along with abrasives, tapes, sealants and tools.

Trumark offer a range of concealed and exposed grid systems that are engineered and manufactured to comply with all relevant Australian standards and codes and have been designed to suit a variety of different ceiling applications.

V200 / 67mm Wide Furring Channel CONCEALED CEILING SYSTEM

The V200 concealed system is an industry first, multi-purpose 67mm wide furring channel that offers fast and functional ceiling installation.

A200 / 28mm Furring Channel CONCEALED CEILING SYSTEM

The A200 is a fully engineered 28mm furring channel concealed ceiling system that is flexible and secure. It easily clips together to form a suspension system that lining boards can be fixed to.

B200 / 23mm Furring Channel CONCEALED CEILING SYSTEM

The B200 is a high calibre 23mm furring channel concealed system that provides a fast, rigid and economical suspended ceiling solution.

SLIMCEIL® LOW CLEARANCE CEILING SYSTEMS

SlimCeil is an innovative concealed system designed for low-clearance ceiling cavity requirements. It is fully adjustable, cost effective and easy to install.

GT ultimategrid EXPOSED CEILING SYSTEM

Trumark's GT Ultimate Grid is an innovative exposed grid ceiling system which is fast to install, high strength and fully demountable.

For full range and accessories visit trumark.com.au/fitout

Use the table to help you find the right ceiling system for your requirements or call our team to discuss your needs.

Need Support?

Ceiling specifications for jobs vary project-by-project. We will work closely with you to obtain all relevant details so we can develop a custom and compliant solution to meet your exact requirements.

V200 / 67mm Wide Furring Channel
CONCEALED CEILING SYSTEM

Working with Trumark

The Trumark "1%" Principle.

With our team of experienced professionals, our focus is on understanding the individual needs of your build to help shorten your construction journey so you can build quicker, easier & more efficiently. Our range might be similar, but the service you get with Trumark is different. Good different. We don't try to be the biggest supplier on the block, we aim to be the easiest supplier to deal with, every time.

But what makes us different? Well, there isn't just one thing that makes Trumark easier to deal with, it is all the "1 percenters" that we do for our customers to help make their job easier – we call it the Trumark "1%" Principle, and it is the reason we have been in business for so many years.

What makes us different?

We actually listen

We realise it is more valuable to listen to what our customers want rather than to talk too much, so that is what we do.

We know a lot of technical stuff

It is a priority for our team to be available to offer the best technical knowhow when you need it – both over the phone or on site.

We are here when you need us

Sometimes you need a favour and this is where Trumark really shines. From fast tracked orders to late-night callouts, we do what we can to support our customers.

We solve problems

Our team are just a phone call away and can be on-site when required to help find a solution to your product or install issues.

Want to find out more? Call us on 1300 00 50 52 to organise a meeting to discuss your business needs.

Trumark supply building materials to the construction industry.
We specialise in facades, fit outs and fixings.
